GRC – GOVERNANCE, RISK AND COMPLIANCE

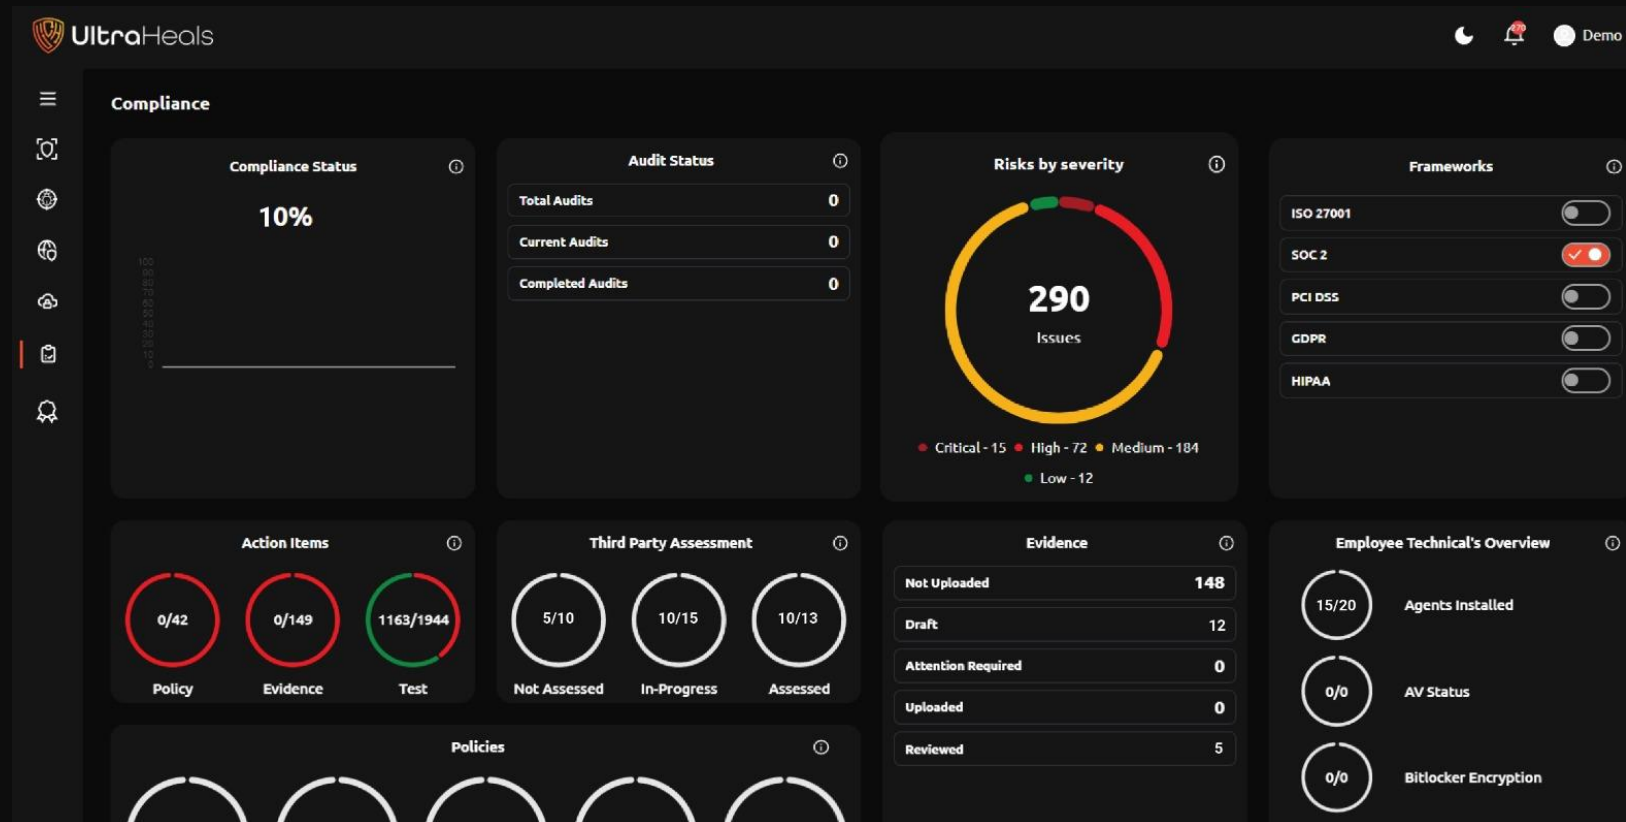

Ultra-Heals addresses the critical need for effective GRC management by leveraging advanced technologies and seamless integrations. It ensures continuous security, compliance, and resilience through real-time vulnerability detection, automated mitigation, and comprehensive risk management, all essential for navigating today's complex regulatory and threat landscapes.

Features

1. Real-Time Vulnerability Detection
2. One-Click Mitigation
3. Automated Penetration Testing
4. Continuous Cloud Monitoring
5. Automated Evidence Collection

Benefits

1. Enhanced Compliance Assurance
2. Improved Operational Efficiency
3. Proactive Risk Reduction
4. Significant Cost Savings
5. Continuous Audit Readiness

CSPM – CLOUD SECURITY POSTURE MANAGEMENT

Ultra-Heals CSPM addresses critical cloud security needs by providing continuous visibility, automated compliance monitoring, and instant remediation. It reduces manual effort, mitigates misconfigurations, and ensures adherence to industry standards, elevating your cloud security posture effectively.

Features

1. Comprehensive Asset Discovery
2. Centralized Infrastructure Visibility
3. Agentless Vulnerability Scanning
4. Automated Misconfiguration Mitigation
5. One-Click Remediation

Benefits

- 1.Enhanced Security Posture
- 2.Reduced Manual Effort
- 3.Simplified Compliance
- 4.Cost-Effective Risk Management
- 5.Centralized Cloud Management

ASM - ATTACK SURFACE MANAGEMENT

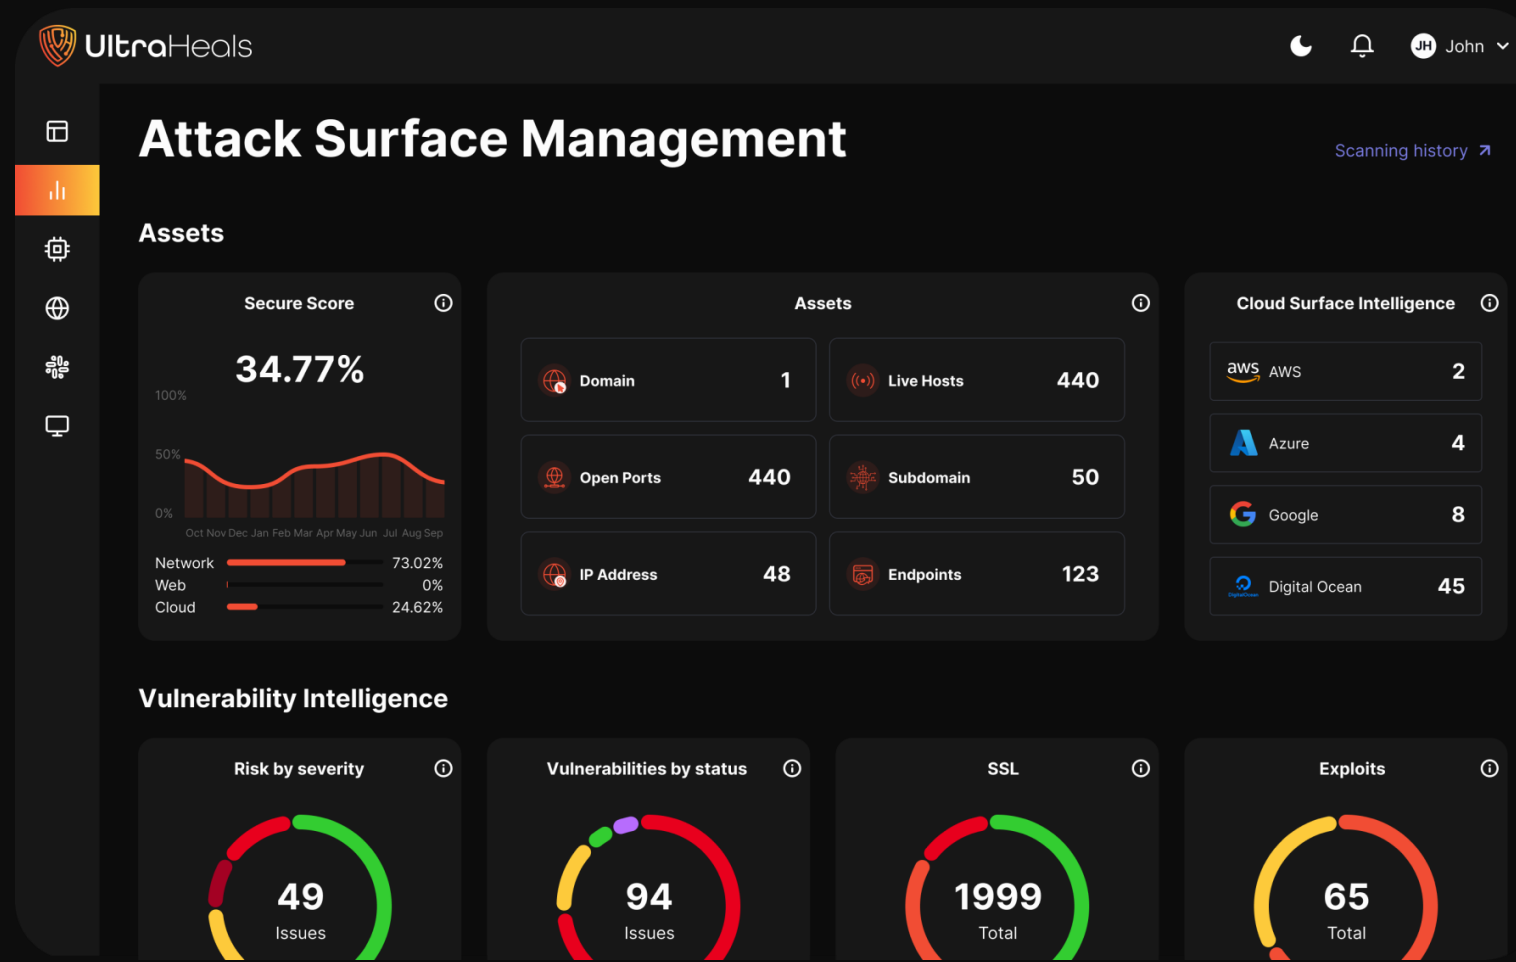

Enterprises require a comprehensive, proactive security solution to combat evolving cyber threats. Ultra-Heals' Attack Surface Management platform addresses this need by offering advanced vulnerability identification, continuous monitoring, and compliance-centric risk evaluation to safeguard digital assets effectively.

Features

- 1.Attack Surface Management
- 2.Vulnerability Intelligence
- 3.Prioritized Remediation
- 4.Centralized Monitoring
- 5.Compliance Mapping

Benefits

- 1.Enhanced Security
- 2.Regulatory Compliance
- 3.Operational Efficiency
- 4.Improved Risk Management
- 5.Continuous Monitoring

DRP - DIGITAL RISK PROTECTION

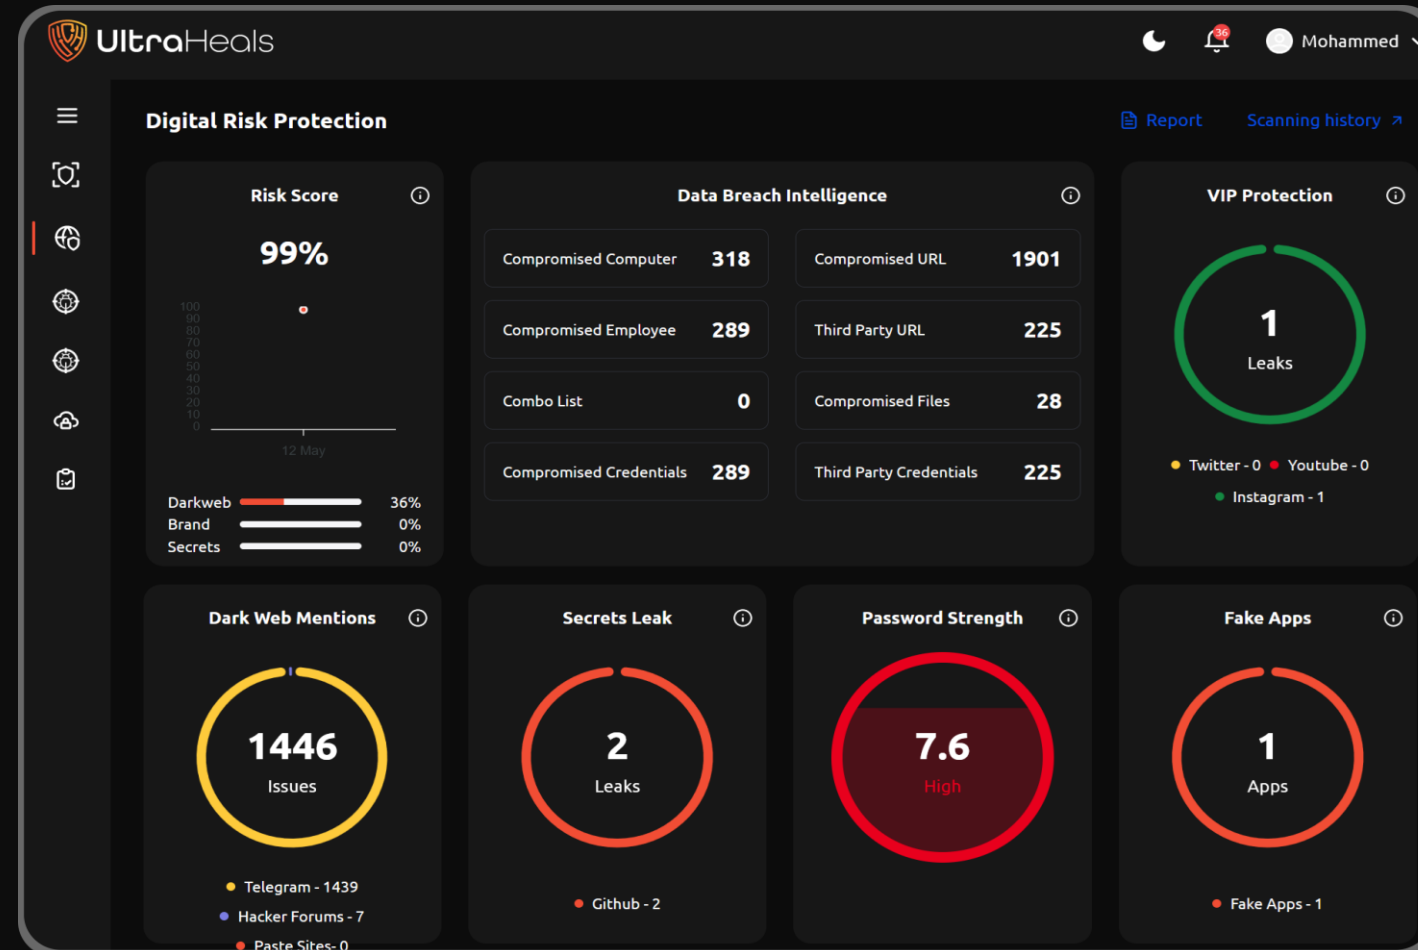

Organizations require a proactive DRP solution to combat evolving cyber threats. UltraHeal's platform offers real-time threat monitoring, data security, and brand protection, leveraging AI and advanced analytics for comprehensive defense.

Features

1. Dark web monitoring
2. Deep web scanning
3. Social media tracking
4. Code repository surveillance
5. Breach database monitoring

Benefits

1. Proactive risk reduction
2. Faster breach response
3. Enhanced brand protection
4. Reduced data loss
5. Streamlined workflows

BTI - BRAND THREAT INTELLIGENCE

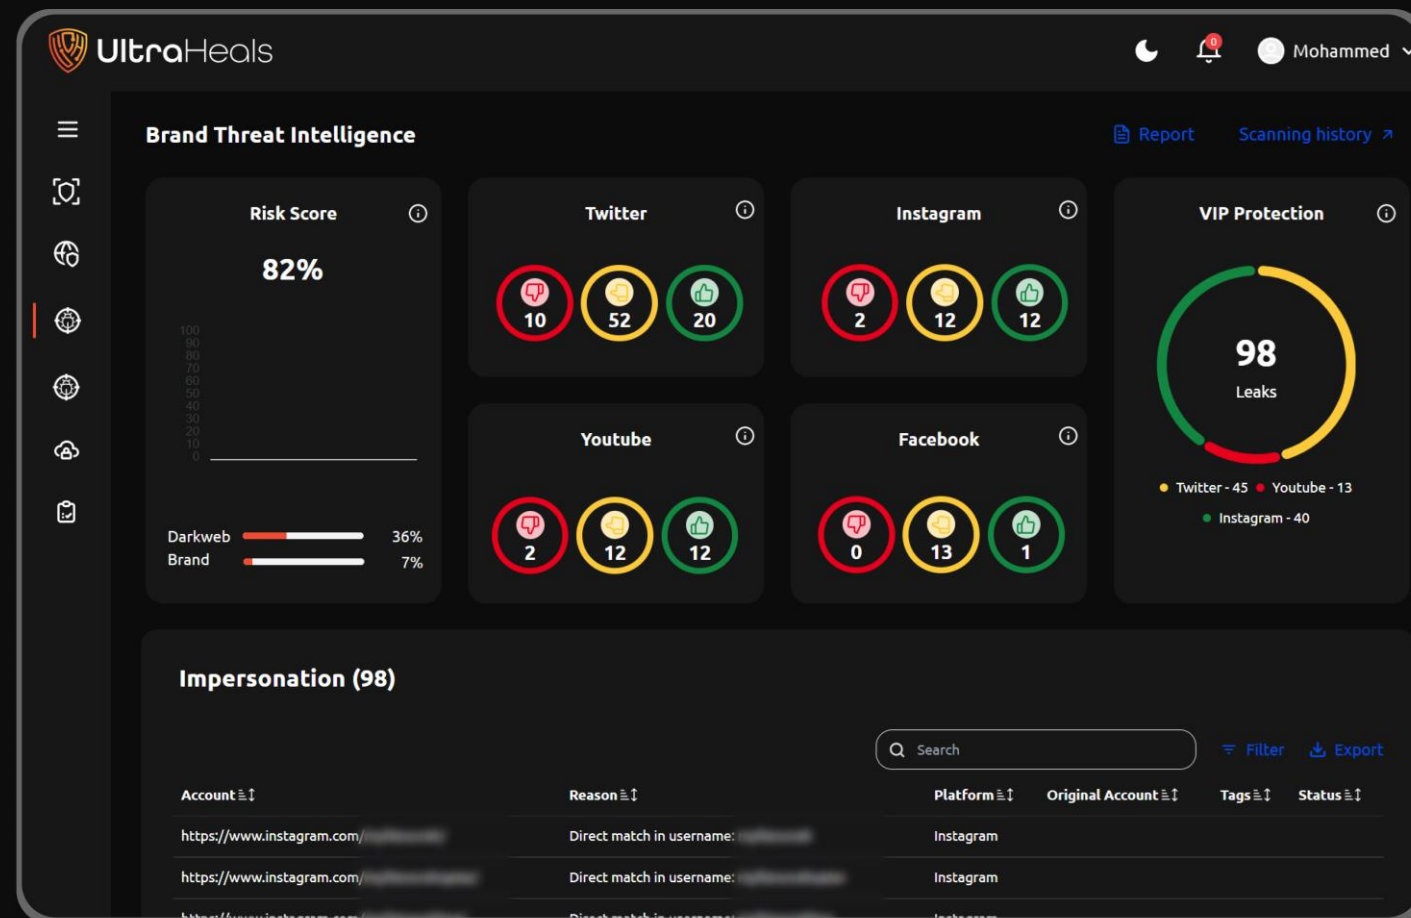

Ultra-Heals addresses critical enterprise needs by leveraging AI-driven brand threat intelligence and VIP protection. With real-time monitoring, threat classification, and secure data handling, it safeguards against identity theft, data breaches, and reputation damage, ensuring proactive defense in today's complex digital landscape.

Features

1. Dark web monitoring
2. Deep web scanning
3. Social media tracking
4. Code repository surveillance
5. Breach database monitoring

Benefits

1. Risk Mitigation
2. Trust Building
3. Cybersecurity
4. Compliance
5. Stakeholder Engagement

OUR PARTNERS

TESTIMONIALS

VIKINES GOONASAKAREN

SENIOR MANAGER CYBER DEFENCE , CARSOME

We chose Cyber Heals as a vendor for filling our cyber security talent needs. We got the best resources, who also got guidance from the experts of Cyber Heals and ensured our needs were fulfilled. Cyber Heals also conducted Cyber Risk Workshops that empowered our leadership in our organization to chart the path for robust Cyber Resilience.

KUMERASEN SRINIVASAN

GENERAL MANAGER - IT, TALENT PRO/PAY CHECK - UK

I would like to express my highly appreciation for your expertise and professionalism. Your quick turnaround time really helped us to identify the exact root cause. **I strongly recommend this team for any level of security assessments for your IT environment.**

NABIL S

SENIOR PRODUCT MANAGER, SIXTH FORCE SOLUTIONS, AUSTRALIA

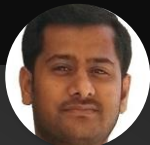

Currently, we're closely engaged with the Cyberheals team on two other products. It's a pleasure to have a reliable security partner to address critical challenges. **Their new tool, Ultra heals, enhances capabilities, contributing to the identification of vulnerabilities** in our attack surface promptly.

AJWAD CADER

CEO, HT WORKS (PVT) LTD

We felt comfortable and confident to work with your team from the first meeting. The professionalism and the in-depth understanding of the industry, helped **your team listen and understand our requirements better.**

SHEIK KHALIFA

MOJ, MINISTRY OF JUSTICE (KUWAIT)

I wanted to reach out and express my appreciation for the proof of concept (POC) you recently shared with us. I must say, **I am thoroughly impressed with the solution presented by Cyberheals.**

HASAN AHAMED

HEAD, IT INFRASTRUCTURE, ABDULLAH AL OTHAIM CO., - KSA

Excited to share that we just experienced a remarkable demo of the cyber Heals - Ultra Security Platform! With its cutting-edge capabilities, the Ultra Heals - **ASM brings a whole new level of protection to our organization,** helping us stay one step ahead of emerging cyber threats.

OUR SUCCESS STORIES

Govt. Energy

The Kuwait Gulf Oil Company (**KGOC**) is a national oil company in the State of Kuwait.

KGOC operates under Kuwait Petroleum Corporation. Cyber Heals has been awarded for KGOC's **Vulnerability Assessment & Penetration Testing** (VAPT) along with Security Awareness Training
